Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)
(application filed on or after May 29, 2000)

The patent term adjustment to date is 0 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 0 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

Acknowledgments

1. The Amendment (paper 17) filed 12/05/2002 has been entered.

Examiner's Amendment

2. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William G. Ackerman on 1-31-2003.

3. The application has been amended as follows:

IN THE CLAIMS

A) Claim 1 has been modified as follows:

On the last two lines of claim 1, the words [torque between said input shaft and said output shaft] have been deleted and replaced with the words --torque, which is transmitted from
C) said input shaft to said output shaft,--.

Art Unit: 3618

Reasons for Allowance

4. The following is an Examiner's statement of reasons for allowance of independent claim 1:

Claim 1 recites the limitation of a power transmission apparatus of motor vehicles comprising an engine, a gear change apparatus, an electric rotary machine connected to an output shaft of said engine and a clutch provided on an input shaft or an output shaft of said gear change apparatus to adjust a transmission torque, which is transmitted from said input shaft to said output shaft during a period of changing torque transmission courses. This limitation, in combination with the other limitations of claim 1, were not found in the prior art.

While Peterson, et al, US Patent 6,251,042 teaches many of the limitations of claim 1, Peterson fails to teach that the transmission torque is "adjusted" by a clutch during a period of changing torque transmission courses. As noted by Applicant on sheets 3 and 4 of paper 17, the clutches, or synchronizers (44, 46, 48 and 50) of Peterson do not "adjust" a transmission torque. The word "adjust" is defined by Webster's Collegiate Dictionary, 10th Edition as: "to bring to a more satisfactory state". This implies that a "state", such as "transmission torque" must already be present and is merely being "adjusted", or changed. The plate clutch 14 of the Instant Application allows gradual application of torque such that during a period of changing torque transmission courses the torque may be "adjusted", while the "clutches", or synchronizers of Peterson do not allow this torque "adjustment".

Art Unit: 3618

5. The following is an Examiner's statement of reasons for allowance of independent claims 3 and 4:

Claim 3 recites the limitation of a power transmission apparatus of motor vehicles comprising an engine, a gear change apparatus, an electric rotary machine connected to an output shaft of said engine wherein the output of the electric rotary machine is provided with a clutch. This limitation, in combination with the other limitations of claim 3, were not found in the prior art.

While Peterson, et al, US Patent 6,251,042 teaches many of the limitations of claim 3, Peterson fails to teach that the output of the electric rotary machine (16) is provided with a clutch.

Claim 4 contains a similar limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
